PROFESSIONAL SUMMARY

Aspiring **Python Full Stack Developer** with hands-on experience in **Python, Django, HTML, CSS, JavaScript and Bootstrap**. Skilled in developing responsive web applications and building scalable backend solutions.

TECHNICAL SKILLS

- Programming : Python, JavaScript
- Framework : Django
- Frontend : HTML, CSS, Bootstrap
- Database : MySQL
- Cloud : AWS (Basic)
- Tools : Git, GitHub, VS Code
- Operating Systems : Windows, Linux

PROJECTS

- **City Lost & Found Portal - [Live Demo]**
  Developed a web application to help people report lost items and find missing belongings in the city. Users can post lost or found item details, view listings, and contact the item owner through the platform.

- **Employee Management System**
  Developed a web-based system to manage employee records, including adding, updating, and deleting employee details.
  The system helps organizations efficiently track employee information and manage data through a centralized platform.

- **E-Commerce Website (Bootstrap) – [Live Demo]**
  Developed a responsive e-commerce website using Bootstrap for modern UI and layout design.
  Users can browse products, view details, and add items to the cart through a user-friendly interface.
